## **Ambition at Daybreak**

I woke before daylight.

Peaks of Ambition  
flood to gallop  
toward opening day.

exigencies of existence  
through this day  
erode  
my mountain at day break  
to a hill  
a large mound

but still

part of a new poem  
continuing part  
of a developing essay  
about current politics  
(oh my)  
and something  
yet unclassified  
about loneliness  
elevated  
to grateful solitude

Significance  
joy of creation  
existence itself

This Day  
grows toward eternity

spin and spin

to joy  
at ambition  
enthusiasm  
for enthusiasm  
even to breathe  
even to live  
even to Love  
learn to Love  
Love to Love  
Love  
even  
each moment's  
sameness,  
joy of existing.

Life.

Peaks of ambition  
Flood into Joy  
of Galloping.
